CAUTION

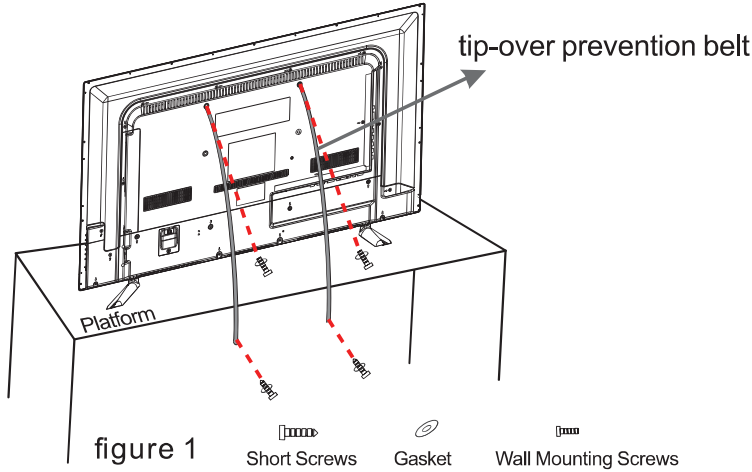

1. **Read Instructions** - All the safety and operating instructions should be read before the appliance is operated.
2. **Retain Instructions** - The safety and operating instructions should be retained for future reference.
3. **Heed Warnings** - All warnings on the appliance and in the operating instructions should be adhered to.
4. **Follow Instructions** - All operating instructions should be followed.
5. **Battery** - Batteries shall not be exposed to excessive heat such as sunshine, fire or the like.
6. **Earthing Connection** - The apparatus shall be connected to a MAINS socket outlet with a protective earthing connection.
7. **Water and Moisture** - The appliance should not be used near water.
8. **Cart and Stands** - The appliance should only be used with a cart or stand that is recommended by the manufacturer.
9. **Wall or Ceiling Mounting** - The appliance should be mounted to a wall or ceiling only as recommended by the manufacturer.
10. **Ventilation** - The appliance should be well situated so that its location or position does not interfere with its proper ventilation.
11. **Heat** - This appliance should be placed away from heat sources such as radiators, heat registers and stoves.
12. **Power Sources** - The appliance should only be connected to a power supply as described in the operating instructions or as marked on the appliance.
13. **Grounding or Polarization** - Precautions should be taken.
14. **Power Cord Protection** - Power supply cord should be located so that it is not likely to be walked on, or pinched by items placed upon it.
15. **Cleaning** - The appliance should be cleaned only as recommended by the manufacturer.
16. **Power Lines** - An outdoor antenna should be located away from power lines.
17. **Outdoor Antenna Grounding** - If an outside antenna is connected to the receiver, the antenna system must be grounded so as to provide against voltages and built-up static charges.
18. **Non-use Periods** - The power cord of the appliance should be unplugged from the outlet when left unused for a long period of time.
19. **Objects and Liquids** - Care should be taken so that objects do not fall, and liquids are not spilled into the enclosure through openings.
20. **Conditions Requiring Service** - The appliance should be serviced by qualified service personnel when:
 - The power-supply cord or the plug has been damaged.
 - Objects have fallen on or liquid has been spilled into the appliance.
 - The appliance has been exposed to rain.
 - The appliance does not appear to operate normally or exhibits a marked change in performance.
21. This appliance should not be exposed to water and no objects filled with liquids such as a vase should be placed on the unit. Where the mains plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.

 <p>Warning</p> <p>High voltages are used in the operation of this product. Do not remove the back cover of the cabinet. Refer servicing to qualified service personnel.</p>	 <p>Warning</p> <p>To prevent fire or electrical shock hazard, do not expose the main unit to rain or moisture.</p>	 <p>Warning</p> <p>Do not insert foreign objects into the television's slots or openings. Never spill any kind of liquid on the television receiver.</p>
 <p>Caution</p> <p>If the television is placed into a confined space, ensure that the minimum distances are observed as shown. Heat build up can reduce the service life of your television, and can also be dangerous.</p>	 <p>Caution</p> <p>Never stand on, lean on, push or apply force to the product or its stand. You should pay special attention to children.</p>	 <p>Caution</p> <p>Do not place the main unit on an unstable cart stand, shelf or table. Serious injury to an individual, and damage to the television, may result should it fall.</p>

CAUTION

Best Practice Guide For Furniture And Television Tip-over Prevention

- Put the TV on the platform, fix one end of the tip-over prevention belt in the TV wall mounting hole with screw. Then fix the other end of the tip-over prevention belt on the platform or other suitable surface with screw. (Choose the suitable screws according to the TV size and model to fix the screw in the TV wall mount hole).
- The wall anchor should be fixed on the wall or other surface permanently, screw fixed in the wall must be put into the rubber plug to avoid breaking the TV and cause server personal injury. (figure 2).
Attention: Check whether the tip-over prevention belt is fixed firmly after installation to avoid accident occurring. The screws fixed in the platform or wall are included in the accessory bag.

Exemptions

- SONIQ is not liable for any damage caused by fires, natural disaster (such as thunderstorms, earthquake, etc.), acts by the third parties, accidents, owner's misuse or use in other improper conditions.

Quick installation manual

STAND ASSEMBLY

1. Please disconnect all the cable connections before installation.
2. Lay the TV face down on a flat surface, on a blanket or towel to avoid damaging the screen.
3. Please keep the TV in a horizontal position and fix the standing base with screws.

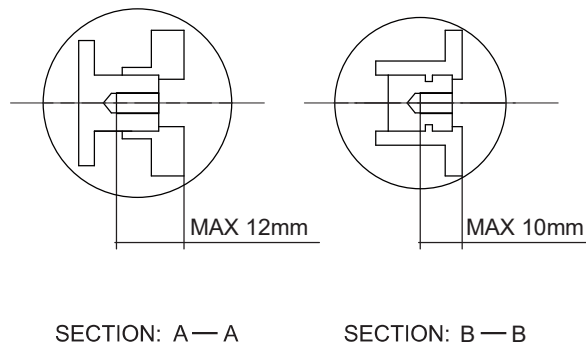

Note:

- Only use matching screws provided by manufacturer in the accessory bag to install the stand of TV unit, in order to avoid damaging the TV unit.

Wall Mounting Instruction:

This TV is equipped with mounting holes of 200 x 200mm. If the thickness of the wall mount is 2mm, 4PCS of type M6 x 10mm screws are required (the length of the screws fixed in the interior of the TV should not be longer than 12mm). Recommend to use SONIQ wall mount and install by professional people (do not operate while the TV is on).

SIMPLE TROUBLESHOOTING

If the display fails or the performance dramatically changes, check the display in accordance with the following instructions. Remember to check the peripherals to pinpoint the source of the failure. If the display still fails to perform as expected, contact the dealer for assistance.

Symptom	DEALING METHOD
No Power	Check the power connection. Pull the plug out, wait for 60 seconds, then reconnect the power and turn on the set.
No Sound	Increase the volume. Check if the set is on the mute state or not. Check the voice setting condition. Check the voice mode setting condition.
Remote not responding	Check the effect of the batteries. If necessary, replace the batteries or clean the remote control sensor window. The distance between the set and the remote control should be less than 6 meters.
Abnormal Color	Check the antenna connection.
TV set needs to be cleaned	Please pull the plug out when cleaning the screen. Use a soft, clean cloth to wipe it off. If needed to clean further, please use dry cloth, do not use naphtha or other thinners liquids.
System Error (For Smart TV only)	<ul style="list-style-type: none">● Retry current operation.● Enter the home page, and select "Restore Factory Setting" in the menu of System Setting. Do not cut off power during restore period.● Power off, then restart.
